

Item-No. 212 | Spray Bottle TONI

This bottle was developed for different solvents and purifiers of water based paints, due to its consistency of EPDM rubber (ethylene propylene diene monomer (M-class) rubber). It is **not** suitable for silicone remover!

Characteristics

- volume: 1 liter
- resistant against different solvents and purifiers of water based paints due to EPDM washers
- not suitable for silicone remover
- PU: 6 pieces
